From: Helmut Reif  
To: Those concerned  
Subject: Information on Publication of Multicenter Study

Dear All,

Due to the most recent meeting of a consultant with Dr. L. Simonato, IARC has organised a meeting for the first week of June in Lyon to

"...work out the definitive paper on the multicentric study on  
ETS and lung tumours in non-smokers."

The rest of the message confirms the publication information which we already know (weekly at first). Simonato will be met again by the end of June.

Best personal regards,  
Helmut
